GREEN CHOICE Products are born when

QUALITY MEETS SUSTAINABILITY

We're all aware of the importance of saving paper, and most of us try to do our bit when it comes to reducing, reusing, and recycling, but that's a bit tricky when it comes to toilet paper! It's probably the only paper material we can legitimately get away with only using once.

**TWINSAYER IS THE BIGGEST,
HIGH-QUALITY RECYCLED FIBRE (RF) TISSUE
MANUFACTURER IN SOUTH AFRICA.**

We manufacture environmentally sustainable Recycled Fibre (RF) products from post-consumer paper that is reworked into new tissue paper. The manufacturing process is energy and water efficient. Twinsaver Recycled Fibre (RF) products are good for the environment because they save waste paper from occupying landfill, are eco-friendly, 100% biodegradable and conserves natural resources. In addition, Twinsaver Green Choice offers quality Recycled Fibre (RF) products without compromising softness.

The **Green Choice Range** by Twinsaver aims to help you meet growing concerns for the environment with sound, **eco-friendly** and **cost-effective product choices** that deliver on the quality and performance you expect.

PARTNER WITH US AND MAKE A SIGNIFICANT CONTRIBUTION TO THE ENVIRONMENT.

BIGGEST RECYCLED FIBRE MANUFACTURER AND BRAND

Twinsaver is the largest tissue manufacturer and the largest user of Recycled paper fibre in Southern Africa. We use only fibre that's recyclable in our Green Choice range.

JOB CREATION

A lot of material used in our Recycled fibre range is collected through informal recycling collectors, providing sustainable incomes to communities in need, while extending the lifespan of landfills.

WATER WISE AND ENERGY EFFICIENT

Targets are set to reduce the usage of electricity and water across all our manufacturing sites, which we continuously strive to achieve.

SUSTAINABILITY

Our tissue and soap products are 100% biodegradable.
Our toilet tissue is septic tank safe.

RESPONSIBLE WASTE MANAGEMENT

The by-product from our 100% Recycled paper manufacturing process is disposed of in an environmentally friendly manner, i.e. it is used in the manufacture of bricks, as opposed to being sent to landfill sites.

RECYCLABLE PACKAGING

We use recyclable poly packaging across the Twinsaver range to integrate our product usage with our clients' recycling initiatives.

The **GREEN CHOICE RANGE** by Twinsaver aims to help you meet growing concerns for the environment with sound, **ECO-FRIENDLY** and **COST-EFFECTIVE PRODUCT** choices that deliver on the quality and performance you expect.

By using Twinsaver Recycled Fibre (RF) products in our everyday life, we can help conserve our natural resources and build a sustainable future.

**LITTLE BY LITTLE OUR CHOICES
MAKE A BIG DIFFERENCE.**
